Garage Doors

Roll-A-Door®

Traditional & Deluxe™

Roll-A-Door Deluxe
in IRONSTONE

When you buy a B&D Roll-A-Door, you're buying an Australian icon. Backed by engineering excellence, quality and thorough testing, B&D Roll-A-Doors are tough, secure and designed to protect what matters most to you.

Endures the test of time

All B&D Roll-A-Doors are tested for 30,000 open-and-close cycles to give you peace of mind that they will continue to go up and down, just the like the day you first bought it.

Quiet, easy operation

Nylofelt® running strips (invented by B&D) ensure all B&D roller garage doors open and close seamlessly and quietly.

The classic look you know and love

There's a reason the look of the beloved roller door has never changed since we invented it in 1956. Roll-A-Door is available in a range of profile options, COLORBOND® colours and B&D unique Timber Look coatings.

Traditional & Deluxe™

Roll-A-Door comes in two profile options, Deluxe™ and Traditional, to complement every style of home. Both profiles offer the same strength, security and reliability that you have come to know and trust from the B&D Roll-A-Door.

An all-time classic.

The Deluxe squareline profile is the go-to for residential applications, available for both single and double sized roller doors to provide a modern finish.

The Traditional profile features a deeper, rounded and more rigid profile. This is particularly suitable for high usage applications and where an extra strong door is required.

- The Deluxe profile is available for both single and double roller doors.
- The Traditional profile is ONLY available for double roller doors.

Deluxe™ Profile:

Traditional Profile:

When purchased and installed with a genuine B&D® opener and registered online, your product is eligible for our 10 Year Total Confidence Warranty. Conditions apply. Register your warranty after you purchase your door and opener to be able to make a claim if something goes wrong. Visit www.bnd.com.au/support/garage-door-warranty/ to register and for more information on B&D's warranties.

Roll-A-Door Neo[®]

Where refined design meets innovative functionality, Roll-A-Door Neo brings style to roller doors. Engineered for strength and security with a sleek modern finish, Neo is the ultimate choice for sophisticated, space-saving garage door solutions.

Roll-A-Door Neo[®] in BASALT

Smoothly glides open and closed

Nylofelt[®] running strips (invented by B&D) ensure all B&D roller garage doors open and close seamlessly and quietly.

A clean, contemporary look

Available in a range of COLORBOND[®] colours for classic designs and B&D's Timber Coat finish to achieve a wooden look appeal.

Tough and reliable

Tested for 30,000 open-and-close cycles to ensure your door will operate correctly for years to come.

Unique Profile

The Neo profile is unique to B&D, and provides the convenience of a roller door with a premium modern look and feel.

Powerful opener*

Designed and tested to work in unison, the B&D Power Drive opener enhances the security and convenience of your new Roll-A-Door Neo, ensuring powerful, reliable operation.

*opener not included.

Neo Profile:

*When purchased and installed with a genuine B&D[®] opener and registered online, your product is eligible for our 10-Year Total Confidence Warranty. Conditions apply. Visit www.bnd.com.au/support/garage-door-warranty/ to register and for more information on B&D's warranties.

A cost-effective roller door solution for homes, sheds and commercial properties. Strong, secure and sleek, every Rollmasta door is made to measure to suit your exact needs and requirements, resulting in an affordable, durable door from a brand you can trust.

Keep the outside, out

Steel door stops and a waist-high centre lift lock – with double-bar locking action – provide an extra level of security. Weather seals prevent dust, leaves and debris from entering the garage.

Smooth and quiet operation

Nylofelt® running strips (invented by B&D) ensure all B&D roller garage doors open and close seamlessly and quietly. Tested for 15,000 cycles, the Rollmasta door offers dependable operation.

Broad range of colours

Constructed from Australian made COLORBOND® steel, the Rollmasta door is available in a wide range of colours to match any colour scheme or style of home and stand up to Australia's

Rollmasta Profile:

When purchased and installed with a genuine B&D® opener and registered online, your product is eligible for our 10 Year Total Confidence Warranty. Conditions apply. When purchased without B&D opener, the Rollmasta is eligible for a 3-years/15,000 cycles warranty (residential application) or 1-year/15,000 cycles (commercial application). Visit www.bnd.com.au/support/garage-door-warranty/ to register and for more information on B&D's warranties.

Colour and product availability may differ depending on your location, please refer to your local B&D dealer for more information. *A surcharge applies to these colours.

AUSTRALIA'S MOST SECURE ROLLER DOOR*

Roll-A-Door SecureTM

Maximum security.

Roll-A-Door Secure™ is Australia's most secure roller door*

The garage door is the largest entry point to the home, yet it is often overlooked. Your garage door deserves the same uncompromising security as every other entry point to your home.

For decades, roller doors were built to close. Roll-A-Door Secure is built to protect. Engineered as a complete four-part system to help resist attempted forced entry, tampering and impact[^].

Built to protect. Proven to perform.

Roll-A-Door Secure is the only roller door that not only meets but exceeds the Australian Garage Door Standard for locking performance and impact resistance*. Built for homeowners who expect more than a door.

Locked shut, every time.

Most garage doors just close. Roll-A-Door Secure locks shut every time. Leveraging dual AUTO LOCK™ technology, heavy duty security guides, a reinforced bottom rail and a compatible opener work together to protect against attempted forced entry, tamper attempts and impact[^].

Roll-A-Door® Reinvented.

In 1956 B&D invented the Roll-A-Door right here in Australia, 70 years on we have reinvented it. Roll-A-Door Secure finally address a long, overlooked gap in home security and transforms the garage door from a simple entry point into a true security system.

Visit www.bnd.com.au
for full details

When you buy a Roll-A-Door Secure system, you're buying more than a door.

You're buying a complete system, tested by B&D, where every element is designed to work together for stronger security, smoother operation and long-term performance. From the locks, rails and guides to the springs, opener and door curtain, every component that makes up the system is covered by B&D's 10-year Total Confidence Warranty

A complete four-part locking system.

Roll-A-Door Secure is the only Australian roller door to meet and exceed the Australian Garage Door Standard for Security.

When the door closes, a reinforced anodised aluminium bottom rail is automatically secured within heavy-duty guide rails by dual AUTO LOCK™ technology. Working seamlessly with intelligent security features built into the opener, the system delivers superior protection and peace of mind that ordinary roller doors simply can't.

Four-Part Locking System.

① Dual Side AUTO LOCK™

Positioned on both sides of the roller door, dual AUTO LOCK™* engage automatically every time the door closes. Working with the Security Bottom Rail, they secure the door in place, while a distinctive locking sound and illuminated indicators provide clear confirmation that the door is locked and protected. Designed to withstand dust, dirt and harsh weather conditions (IP66).

② Security Guides

Heavy duty aluminium Security Guides run down both sides of the opening, keeping the door firmly secured within the frame. Engineered for added strength, they resist attempts to force the curtain out of the guide system, providing an additional layer of protection against forced entry.

③ Security Bottom Rail

Manufactured from heavy-duty anodised aluminium, the Security Bottom Rail delivers the strength, durability and corrosion resistance needed for a critical role within the locking system. Working directly with the Dual AUTO LOCK™, it helps keep the door securely closed, resisting upward force and maintaining the integrity of the locking system.

④ Opener

The opener is what brings the Roll-A-Door Secure system to life. It does more than automate the door; it drives the Dual AUTO LOCK™ so the system can lock shut as intended. Roll-A-Door Secure should be paired with a B&D specified opener**. Quiet and reliable, it features Automatic BackDrive and reverse technology for superior protection and safety. Tri-Tran+ advanced encryption technology is also embedded to prevent code theft.

Profiles

Deluxe™

The Deluxe Roll-A-Door profile offers a clean look that suits a range of home styles. Available in both single and double door sizes, it combines modern street appeal with the strength, durability and reliable performance.

Single Door

Double Door

Profile

NEO®

Roll-A-Door Neo combines contemporary design with the practical benefits of a roller door, delivering a clean architectural finish while maximising valuable ceiling space. Available in single door sizes, it offers the sophisticated look of a sectional door with the strength, security and space-saving convenience of a B&D roller door.

Single Door

Step 2:

Choose your profile

Nullarbor

Seville

Statesman

Grange

Only available on  Panelift Icon.

Madrid

Turino

Step 3:

Choose between Smooth or Woodgrain

Smooth, as the name suggests is a traditional, modern smooth finish on the steel. The Woodgrain also as the name suggests creates a woodgrain like texture over the profile of the door. Nullarbor Smooth doors are only available on our Panelift Icon.

Smooth

Woodgrain

Please note:

All flat, smooth panel profiles can exhibit signs of oil canning under certain light conditions. It is typically more visible on darker colours. Oil canning is not a structural defect but simply an aesthetic issue. Grange and Statesman profiles – embossment sizes vary slightly depending on manufacturing location. Nullarbor Smooth doors are not available with powder coating or insulation. Please take these factors into account when selecting your profile and texture.

PFI Insulation

residential sectional garage door option

description

The B&D Insul-Shield™ is an optional extra that offers exceptional insulation technology and represents the smart choice for home owners.

Insul-Shield™ is made using ThermaSilver™ – an innovative quality graphite embedded EPS material which produces up to 20% more insulation compared to conventional EPS. ThermaSilver™ is strong, durable and unaffected by humidity.

NOTES / INFORMATION

- For areas within one kilometre of a corrosive environment eg. salt air or industrial fallout, special care and maintenance are generally required for metal products. Consult B&D Doors or your B&D Dealer for advice.
- Panelift garage doors, in normal residential use are covered by a five year warranty for all components and labour conditional on care and servicing as recommended in the door's handbook. Full details of the warranty are available, on request, from your nearest B&D office.
- The company reserves the right to make changes or improvements to the products or accessories without notice and without incurring any obligation to make similar changes or improvements to goods previously ordered.
- Prefix Trademarks are trademarks of B&D Australia Pty. Ltd. Abuse of these trademarks may result in legal action.
- COLORBOND® is a registered trademark of BlueScope Steel Limited.
- B&D products have many patents and registered designs applicable.
- While BlueScope Steel is our preferred supplier, steel products from other sources may also be used.
- The process of roll forming sheet steel may cause irregularities in flat panel surfaces. Woodgrain texture improves the doors aesthetics. Smooth finish not available for all sizes.
- Details correct at date of publication. Specifications subject to change without notice.

Step 4: Upgrade options

COMFORT

INSUL-SHIELD™

If you live in a busy area or use your garage for more than parking your vehicle, we strongly recommend you add our Insul-Shield™ insulation. Acting as a two-way noise barrier for a noticeably quieter garage, Insul-shield also assists with keeping your garage warmer or cooler.

SAFETY

WIRELESS SAFETY BEAM

If you have young children or pets, safety beams provide added safety and security. If the beam is broken while the door is closing it will automatically stop and reverse. B&D® always recommend the use of safety infra-red beams on all automatic garage doors.

CLEAN AND TIDY

BRISTLE SEALS

Bristle seals fill the gaps around the door, acting as an effective barrier against dust, sand or leaves entering the garage, creating a cleaner environment. This is particularly important when the garage is used as a living or work area.

HIGH WIND PROTECTION

STORM-SHIELD™

The B&D Storm-Shield™ Wind Rated Sectional Door has been specifically designed for use in cyclone affected areas in Australia. Engineered for Region C, Terrain Category 2, Wind Classification up to C2. Independently tested and certified by NATA accredited agencies.

BUSHFIRE PROTECTION

B&D BAL-Maze™

B&D® BAL-Maze™ – the only CSIRO tested BAL-40 door system in Australia. When you live in bushfire zones, you need to have confidence in BAL rated products to protect you when you need it most! You can rely on B&D® to provide that peace of mind.
